

PROFESSIONAL PROFILE

Software Engineer with 4+ years of experience building and scaling high-availability Java/Spring Boot enterprise applications. Proven expertise in end-to-end system ownership, legacy code stabilization, and rapid resolution of critical production defects. Currently completing an MSc in Information Systems at UCD and seeking a full-time role to deliver robust, scalable software solutions within the Irish tech sector.

TECHNICAL SKILLS

Languages & Frameworks: Java (Core + Advanced), J2EE, Spring Boot, Spring MVC, Spring IOC, REST APIs, Hibernate
Testing & Quality: JUnit, Mockito, Unit & Integration Testing, Test-Driven Development, Behavior-Driven Development
Databases: MySQL, Oracle SQL
DevOps & Tools: CI/CD Pipelines, Git, Maven, Jenkins, IntelliJ IDEA, Apache Tomcat, Postman, SonarQube
Architecture & Methodologies: Object-Oriented Design (OOP), SOLID Principles, Design Patterns, Agile (Scrum), SDLC, JSON/XML, Root Cause Analysis

WORK EXPERIENCE

Quality Control Administrator, Q-Park Oct 2024 – Present

- Audited over 4000 monthly CRM transactions with 98%+ accuracy, significantly reducing operational errors and customer escalations.
- Resolved more than 100 monthly system issues including payment and account errors, cutting resolution time by 20% through root cause analysis and process improvements.
- Maintained an appeals tracker and prepared all case documentation to meet quality and compliance standards.

Software Engineer, Cognizant Technology Solutions Jul 2020 – Aug 2024

- Built and maintained Java/Spring Boot services for Exigen Insurance Suite, processing 200K+ daily API requests at 99.9% uptime for 15K+ users, ensuring data integrity and feature consistency across modules.
- Led production incident response, resolving over 20 P1 outages with 100% resolution rate and reducing recurring faults by 35% through root cause analysis and preventive measures.
- Developed 25+ batch jobs using Java and Spring Batch automating policy renewals, mid-term endorsements, form data updates, and bulk Oracle SQL testing workflows to streamline operations and improve efficiency.
- Raised legacy module test coverage above 92% with 100+ JUnit/Mockito tests, introducing TDD and BDD practices that reduced defects by 30% and improved code quality across the platform.
- Resolved service and database bottlenecks, improving response times by 25% and enabling 98%+ on-time releases through CI/CD pipeline optimizations using Jenkins, Maven, and Sonar.
- Led code reviews enforcing SOLID and secure coding standards, mentoring junior engineers and sustaining quality across 100+ production releases with consistent best practices.

ACADEMIC PROJECTS

Project Management for Bilingual History Learning App

- Developed a project management plan for a government-commissioned bilingual mobile app covering €1M budget, 34-week schedule, risk register, and RACI matrix for 15 stakeholders, ensuring comprehensive oversight.
- Implemented Closure and Maintenance sections defining incident SLAs, quality gates (GDPR, WCAG, ISO 27001), and a 90% user satisfaction threshold to guarantee long-term compliance and reliability.
- Tools Used:** Project Management, Risk Register, RACI Matrix, GDPR, WCAG, ISO 27001

Outreach Event Management App

- Built a full-stack event management application using Java, Spring Boot, Hibernate, MySQL, and JSP that automated participant registration, role-based access control, and real-time data logging for event managers.
- Built a full-stack event management app using Java, Spring Boot, Hibernate, MySQL, and JSP that automated registration and role-based access for 200+ users, replacing manual processes with a reliable system.
- Tools Used:** Java, Spring Boot, Hibernate, MySQL, JSP

EDUCATION

- University College Dublin, MSc. Information Systems

Sep 2024 – Sep 2025
- **Coursework:** Informatics, Data & Society, Applied Data Wrangling and Visualisation, Quantitative Data Analytics, Language Models and Methods, Interactive Dashboards, Python, Project Management, AI Ethics & Auditing, Machine Learning Foundations
- University of Engineering & Management, BTech. Electronics & Communication Engineering

Jul 2016 – May 2020
- **Coursework:** Engineering Mathematics, Physics, Computer Programming, Computer Organisation & Architecture, Database Management Systems, Data Science & Data Analytics

CERTIFICATIONS

- Certified Data Analytics, Google
- Google Cloud Ready Facilitator Program
- Software Engineering Virtual Experience, JP Morgan Chase and Co.
- Spring Boot certified, Udemy
- Hibernate & JPA certified, Udemy
